

Power Anytime, Anywhere

**TI1000 GPU-24**  
NSN: 6130-01-418-5230  
CL IX

#### **Perfect Aircraft Ground Power/Starting Solution**

- Tesla's lightest unit that provides 1500 peak starting amps
- Ideal power for maintenance hangars, FARPs, and deployment
- Eliminates hot starts

#### **Safe and Easy Operation**

- One person can maneuver and operate the unit
- Safe for flight, non-hazardous, dry-cell technology
- "Push to Test" feature provides instant state of charge

#### **Pure Power**

- No spikes or surges
- 24 VDC for engine starting
- 25 amps at 28.5 VDC for testing and troubleshooting avionics, communications and weapons systems

#### **Maintenance-free Performance**

- Operates and charges from 110/220 VAC power worldwide
- 5 to 7-year service life with 2-year warranty
- Backed by a trained military support team and an experienced staff of customer service professionals
